S&P 500 **-4.60%**

KEY TAKEAWAYS:

With an unknown company like Lianhe Sowell International Group Ltd. the hope was for a 100% gain. That happened when LHSW peaked at \$8.18

An initial Buy @ \$5.80 Limit to Open order was placed after trading froze right after open at \$5.83 at 12:00pm. The order was not executed when trading resumed at 12:20pm at \$7.17 and the order was then manually cancelled.

A minute later LHSW reached the 100% threshold... then dropped two minutes later to 69.75%.

ONCE THE THRESHOLD IS MET AND DROPS 30%... THE OPPORTUNITY IS PASSED AND BUYING AT THAT POINT CAN ONLY INCURE LOSSES WHEN TOO MANY UNKNOWNNS LIKE FREQUENT TRADING FREEZES OCCUR

ALSO...

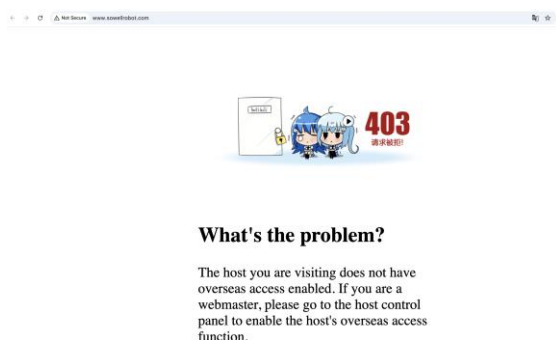

A closer look (after the fact) at the MarketWatch news release revealed something:
